31st July 2026

INTERNSHIP COMPLETION CERTIFICATE

To whomsoever it may concern

This is to certify that **Mr. Gautam Saw**, B. Tech Student of (Electronics and Communications) at **Deenbandhu Chhotu Ram University of Science and Technology, Sonipat, Haryana** has successfully completed his **Internship** at **Adroidex Knowledge Solutions Pvt. Ltd.** from 23rd May 2026 to 31st July 2026 as a Robotics Engineering Intern.

During the internship period, worked on key projects assigned as part of Adroidex K-12 Education vertical.

Following assignments were successful delivered by Gautam Saw as below:

KEY RESPONSIBILITIES AND WORK COMPLETED

- Conducted classes on Arduino, sensors, motor drivers, relay modules, home automation, robotics, and basic electronics to K-12 Students of Adoidex K-12 Education.
- Taught K-12 students who were part of MakersPlace, the experiential learning center of Adroidex, using STEAM educational tools such as m-Bot, Codey Rocky, Qobo, m-Tiny, Tale-Bot, Playtrons, Playtronix, and Znatok.
- Guided students in projects including line followers, obstacle avoidance robots, automatic dustbins, home automation systems, smart irrigation systems, and soccer bots.
- Worked extensively on Fusion 360 for 3D modelling, reverse engineering, assemblies, arena design, keychains, name plates, and custom mechanical parts.
- Gained hands-on experience in 3D printing, including printer operation, filament changes, multi-colour printing, slicing, support structures, infill patterns, troubleshooting, and post-processing.
- Designed and modified custom 3D-printable parts for robotics and educational applications.
- Worked on Line Follower Robot (LFR) development, including component selection, arena design, sensor placement testing, chassis design, and hardware integration.
- Conducted research and development activities for in-house DIY kits being developed by Adroidex Knowledge Solutions Pvt. Ltd., including component selection, feature exploration, hardware planning, and educational applications.
- Designed a custom plug-and-play PCB/controller board concept for easier sensor connectivity and future expansion.
- Explored and evaluated various educational robotics kits, hardware platforms, and learning resources.
- Participated in product demonstrations, school visits, and technical discussions.
- Assisted in hardware assembly, testing, component organization, and inventory management.

Throughout the internship period, he demonstrated professionalism, initiative, analytical thinking, and a strong willingness to learn while contributing to live business and edtech initiatives of the company.

We appreciate his contribution and wish him success in all his future endeavors.
